Avision
AD345F Document Scanner
A vision of your office

## High Productivity, High Versatility

## Features:

- Scans double-sided color documents up to legal size via ADF
- Fast scan rate up to 60 pages per minute and 120 images per minute at 200 dpi in color, gray, or B\&W mode
- Reverse roller technology delivers outstanding feeding reliability
- USB 3.1 Gen1 for high speed transmission
- Ultrasonic multi-feed detection
- Earth-friendly LED technology
- Compact auto document feeder holds documents up to 100 pages
- Easy-to-use button scanning
- Supports 236" ( $6000 \mathrm{~mm}, 200 \mathrm{dpi}$, color duplex ) long page scanning
- Auto power off setting

A New Generation of Document Scanner Enhanced with innovative features, the Avision AD345F offers high throughput of 60 ppm and 120 ipm in a compact footprint conserving both space and budget. Unlike common sheet-fed scanners which provide only the auto document feeder and can not accommodate irregular sizes and weights of paper, the AD345F harmoniously combines the benefits of the fast scan rate of the ADF and the convenience of the flatbed unit to meet customer's diverse requirements.

## A Duplex Scanner Suited for Document

 and CardsThanks to the advanced straight paper path and image processing technology, mixed batches of documents with varies sizes and weights can be scanned, appropriately cropped, deskewed, and ready to use. Scan size accepts paper from receipts $50 \times 50 \mathrm{~mm}$ ( $2 \times$ 2 in .) to business document $242 \times 356 \mathrm{~mm}(9.5 \times 14$ in.). The auto document feeder is also robust enough to feed paper up to $400 \mathrm{~g} / \mathrm{m}^{2}$ ( 110 lb .) and embossed hard cards such as ID cards, credit cards, driver's license, and health insurance card up to 1.25 mm thick.

Effective network Scanning
With the optional network port at the back side, the AD345F allows you to use it as a network scanner. This means users in the intranet environment can share the scanner and obtain the scanned image from their individual computer.

Reverse Roller Enhances Feeding Reliability Designed with the innovative reverse roller for advanced paper separation capability, the AD345F delivers outstanding feeding reliability and operating productivity by effectively reducing the risk of a multi-feed or paper jam.

Automatic multiple images cropping In addition, the scanner comes with the convenient feature of multiple images cropping. With this feature, various sizes of documents such as photos, ID Cards, or business cards can be placed on the flatbed and the scanner is able to crop and create multiple images according to the original sizes of the documents in one single scan.

## Paper Protection Technology

The advanced Paper protection technology protects valuable paper from being wrinkled or torn by halting the scan process once a skewed page is detected.

## Earth-Friendly LED Technology

The AD345F delivers high throughput and outstanding performance. However, it is earth-friendly at the same time. The LED technology requires no warm up time and is lower power consumption without generating mercury vapor as other traditional scanners using the CCFL (cold cathode fluorescent lamp) technology.

What we have bundled
The AD345F come with TWAIN and ISIS drivers, and are bundled with a suite of powerful software applications that include Avision Button Manager V2, AVScan X, and ScanSoft PaperPort SE 14. With Button Manager V2, you can scan to searchable PDF, JPEG, BMP, or GIF file format, save to folder on your computer, and scan to e-mail, image editing application, or even a cloud application such as Google Drive, or Microsoft SharePoint with a press of a button. The AVScan X and ScanSoft PaperPort are highly effective image processing and document management software that helps you streamline your task more efficiently.

## Avision | AD345F Document Scanner

Avision's Button Manager V2
Completes your scan with a single step

The Button Manager V2 main screen
Button Manager V2 makes it easy for you to scan and send your image to your favorite destinations with a press one button. Now the new version comes with an innovative feature to let you scan and automatically upload the scanned document to popular cloud repositories such as Google Docs, Microsoft SharePoint or FTP. In addition, the iScan feature allows you to insert the scanned image or recognized text after optional OCR (Optical Character Recognition) process to your text editor such as Microsoft Word to get your job done easily and quickly.

AVScan X<br>The Intelligent Document Management Tool

The AVScan X main screen
Document Imaging is the very first step of Document Management. However, poor quality images can cause serious problems to later indexing or storing processes. It may increase scanning labor costs and lowers the OCR accuracy. AvScan $X$ ensures all documents are checked and polished at the time they are scanned such that the image quality is guaranteed before they are ready to use for other purposes.
AvScan $X$ is an intelligent scanning and electronic filing solution. AvScan $X$ possesses distinct features that convert and index scanned information into electronic documents for easy storage and fast retrieval.

## Nuance PaperPort SE14

The Professional Choice to Organize and Share Your Documents

PaperPort SE 14 is Nuance's most popular scanning and document management solution, carefully designed specifically for home office use. Part traditional file cabinet, part digital-document desktop, PaperPort SE 14 is the fastest and easiest way to scan, share, search and organize your documents. Additionally, PaperPort SE 14 now delivers anytime-anywhere access to your most important files however it's convenient for you using a PC, Mac, iPhone, iPad, or Android device.
